

"It's time for revelations.

That's why it's so important for you to do the research. As the great revelation continues, the slow drops of information that have seeped in are replaced by a flood of truth.

Your job is to spread this truth among those around you, among those who turn to you for help.

There will be more chaos. The light is working very hard right now. Many of the dark leaders have capitulated and are actually working for the light.

This doesn't seem obvious, since their mission now is to behave so illogically and insanely that even those souls who are deeply involved in the fake story of the mainstream news must have suspicions about the information being fed.

What will happen next?

The old system must collapse before the new one can rise from the ashes. The lockdown will continue and will increase. This has nothing to do with the virus.

There's a lot going on behind the scenes. There are arrests, new ones ahead. The Light Alliance wants to protect you while this is happening. If the situation was normal and you all went about your business, dark in your desperation, could cause a lot of damage, many deaths would be caused by false flags, shootings, and terrorist activities.

So don't be surprised by everything that happens, the talk of viruses, vaccines, alien invasions, terrorist riots in cities will continue and intensify. In some places, there will be troops on the streets.

You are safe in your homes. Be calm.

Trust the plan.

Great times are ahead.

Let's turn to your beautiful future. What will be waiting for you when you move into a new reality? Indeed, you find yourself in an incredible time.

Your water and food will no longer be poisoned. Only from this your health will improve exponentially. You will all become vegetarians and enjoy the feeling of well-being.

Planet Earth will be cleansed of the pollution and debris it has encountered. The flowers will become more colorful. The sky will become a brighter blue. The birds will sing more beautifully. The oceans will become clean, the fish will be reborn. The rivers will flow now in a rapid stream.

The medical system will be removed. Healthcare will indeed become a health service as the truth about medicines becomes apparent.

The old system of making money from radiation, chemotherapy, drugs and surgeries, as well as regular medical examinations with their many expensive and invasive tests, will disappear.

There will be healing machines that will scan the human body and vibrationally evaluate, as well as heal any ailments. Cancer will no longer be a force, because its cause will be eliminated, and its life-draining treatment will no longer be needed.

The drug trade and human trafficking will cease as humanity takes responsibility for its own destiny. Traditional doctors will be replaced by natural healers and shamans, who have so far been suppressed by those in power. You will be healers and shamans yourself.

Holistic energy healing is in our future."

"...new technologies will flood the market. Many new inventions have been made and patented in recent years. They were stolen and suppressed by the authorities. Now they will be opened and activated.

Gasoline-powered cars will be a thing of the past. Tesla's new eco-friendly technologies are already available and in production. Thus, air travel will also change a lot for the better. No more endless queues at airports, no more security checks. No more piling up like sardines on cramped seats.

There will be no more expensive electricity. Free Tesla magnetic energy will be available to everyone. Each house will have its own car with free electricity.

For a while, language will continue to be the main means of communication. However, we will increasingly be telepaths and will be able to read each other's minds.

Dishonesty, deception and fraud will gradually become a thing of the past.

The government as we know it will end. The bloated bureaucracy created to control and restrict us will be dismantled. The petty bureaucrats, rules and regulations that we suffered from will no longer exist. The representatives who make our laws will be appointed by frequency of love, talent, and ability, not by degree and diploma.

The education system will be dismantled. Home schooling will become an everyday event as families travel the world together to different countries, learn languages, and absorb different cultures. Different cultures will be adjacent to each other. The spirit of camaraderie, love, and laughter will return. Children will learn from a happy, heartfelt experience, not from memorizing and cold multiple-choice questions.

History will be rewritten when the truth is known. The history of the true experience of Mankind will be known to all. And Humanity will enjoy this knowledge and what they have achieved, living a Human life.

The financial system will be updated. During the transition period to the fifth dimension, the money will still be used. But it will be a gold-plated security paper, not just a paper that can be printed at will.

Debt forgiveness is in our future. For debt and usury were the tools of those in power. The income tax will disappear. The government will be so reduced that it will no longer be a huge drain on finances as it was before."
