

***VACCINES
SAFE and EFFECTIVE
suggested
non-technical
'informed consent' questions
to anyone who wants to
squirt one or more in to you.***

***mRNA VACCINE
informed consent
request for information
prior to medical procedure***

Dear medical professional

***you are obliged to provide me with
complete information about
any medical procedures you
recommend for me
and my informed consent
for you to administer them.***

***Please provide answers
to the following
questions or concerns
that I may have listed.***

***Until these questions have been
answered to my complete
satisfaction and I instruct otherwise
I do not consent to any medical
Procedures.***

***a tick/check mark is required
for a 'YES' response
a cross 'x' is required
for a 'NO' response***

1. YES NO

Is the covid 19 vaccine you intend to inject in to me really a vaccine at all?

2. If it's not a vaccine, what is it?

(explanation) _____

*From now on, I will not refer to it as a vaccine,
until such time as it is confirmed,
beyond reasonable opinion,
to be anything other than just a liquid
that does not appear to have any qualities
normally associated with the term 'vaccine'
and until all of it's contents are known
and their possible effects on me.*

3. YES NO

Has the liquid you intend to inject into me been thoroughly tested and formally declared 'safe' and 'effective' by the manufacturer?

4. YES NO

Is the liquid you intend to inject in to me guaranteed 100% safe and do you guarantee I will have no adverse side-effects from it?

5. Regardless, what are the possible side-effects of the liquid you intend to inject in to me?

6. YES NO

Could the liquid you intend to inject in to me make me sick, even temporarily?

Please initial this page (1 of 11) _____

7. YES NO

Is it possible the liquid you intend to inject into me might cause cardiac, neural or psychological problems at any time in the future?

8. YES NO

Is it possible that the liquid you intend to inject in to me may cause premature death?

9. YES NO

Is it possible that the liquid you intend to inject in to me might cause me to be sterile?

10. YES NO

Is it possible that the liquid you intend to inject into me could cause any sexual partners I might have in the future be unknowingly be sterilised by their contact with me?

11. YES NO

Is it possible that the liquid you intend to inject into me could cause any encounters I might have in the future with any person may cause them to become sick simply because of their contact with me?

12. YES NO

Does this the liquid you intend to inject into me give any guarantees about preventing me contracting/getting any virus?

Please initial this page (2 of 11) _____

13. YES NO

Has the virus the liquid you intend to inject into me protect me against been isolated?

(explanation) _____

14. If not, how can the liquid you intend to inject into me protect me against the virus it's supposed to protect against?

(explanation) _____

15. YES NO

If I get any virus, does the liquid you intend to inject into me prevent me passing the virus it's supposed to offer protection against on to others by way of 'shedding'?

16. YES NO

Is the liquid you intend to inject into me still in experimental stages?

17. YES NO

Has the liquid you intend to inject into me been thoroughly tested on pregnant females?

18. YES NO

If the liquid you intend to inject into me has not been tested, does that mean it's still experimental?

19. Does that mean, in reality, if I consent to be injected with this liquid, I've consented to be no more than part of an experiment to see what will happen to people who have it injected in to them?

Please initial this page (3 of 11) _____

20. What is mRNA and what does it do?

(explanation) _____

21. YES NO

Does this liquid contain mRNA?

22. YES NO

Has this liquid been designed to change my DNA?

23. YES NO

If my DNA is changed can I change my DNA back to the way it was if I change my mind?

24. YES NO

As human DNA is what makes us 'human' does that mean if my DNA is changed artificially I'm literally no longer 'human'?

25. If I'm no longer considered 'human', what am I? What is my status?

26. YES NO

If I produce children, will my children inherit my changed DNA and also not be 'human'?

Please initial this page (4 of 11) _____

27. YES NO

If they grow up to adulthood and have children of their own, will their children inherit their changed DNA, as well as the changed DNA they inherited from me?

What will their status be as 'human' or 'non-human'?

28. YES NO

If so, does that mean if I consent to allow you to inject this liquid into me, will my decision likely affect not only myself but also my entire bloodline into the future and cause that of all my descendants from now on could also could cease to be human?

(explanation) _____

29. YES NO

If the liquid you intend to inject into me causes me to experience ill effects, or symptoms, is it reasonable to assume the 'system' will do its best to deny that this liquid caused them - even though there may be no personal or family history to support a denial?

30. YES NO

If the liquid you intend to inject into me causes me to experience ill effects, or symptoms, is there a guarantee that I will experience a full and complete recovery with no residual effects?

Please initial this page (5 of 11) _____

31. ^{YES} ^{NO}

If I suffer any adverse effects or symptoms and appear to recover is there any guarantee they won't return in the future?

32. ^{YES} ^{NO}

If I suffer any adverse effects or symptoms will my descendants also be likely to experience similar adverse effects as they will also have my altered DNA?

33. ^{YES} ^{NO}

If I suffer any adverse effects or symptoms and it can be confirmed that the liquid you intend to inject into me caused them and I'm disabled will I receive financial restitution to compensate me for loss of earnings and support even though it will be deemed that I consented for you to inject this liquid into me?

34. ^{YES} ^{NO}

Is it possible that any adverse effects or symptoms I might experience might be so serious I could die because of them?

35. ^{YES} ^{NO}

If I suffer any adverse effects or symptoms and I die, and it can be proved that the liquid you intend to inject into me was the direct cause, will my family be financially compensated and supported?

36. ^{YES} ^{NO}

Do you know ALL the ingredients contained in the liquid you intend to inject into me?

Please initial this page (6 of 11) _____

37. What is an adjuvant and what are the effects of adjuvants on a human body?

(explanation) _____

38. What is graphene oxide and is it contained in this liquid?

(explanation) _____

39. If graphene oxide is contained in this liquid what can it do to my internal organs when it's introduced to my blood-flow?

(explanation) _____

40. What is an antigen and what do antigens do to a human body?

41. YES NO

Are the effects of adjuvants and antigens reversible if I change my mind?

(explanation) _____

42. What is glyphosphate and is it contained in this liquid?

43. YES NO

Does the company that created this liquid include ingredients that it doesn't tell anyone about because the company wants to keep them secret and proprietary?

44. YES NO

Please initial this page _____

In reality, is it a fair assumption that no-one really knows what this liquid contains other than the manufacturers?

Please initial this page (7 of 11) _____

45. YES NO

In reality, is it a fair assumption that no-one really knows what side-effects this liquid can cause?

(explanation) _____

46. If that's the case, why are you prepared to inject this liquid into me?

(explanation) _____

47. YES NO

Do you receive a financial benefit for injecting people with this liquid that you will not receive by not vaccinating people?

48. If there's no proof this liquid does anything beneficial why are governments forcing people to have it injected into people?

(explanation) _____

49. If this liquid is as effective as we're told, why are so many 'boosters' necessary in such a relatively short period of time?

(explanation) _____

50. YES NO

Are financial incentives provided to encourage providers like yourself to continue injecting people with this liquid?

51. If, on the other hand, this liquid is so ineffective and dangerous then why are so many 'boosters' continuing to be released and mandated in such a relatively short period of time?

Please initial this page (8 of 11) _____

52. YES NO

Do you consider this liquid to be safe and effective and will do me no harm?

53. If so, what data do you have that shows the benefits it can have for people who have it injected into them?

(explanation) _____

54. YES NO

Did you swear to the Hippocratic Oath?

55. YES NO

The Hippocratic Oath contains "I will abstain from all intentional wrong-doing and harm".

Do you believe that, by administering this liquid you are upholding the Hippocratic Oath to it's fullest extent and that by injecting this liquid into me I will not experience any harm at any time in the future?

56. YES NO

Are you aware that certain batches of this liquid are reported to have a higher incidence of serious side-effects than others?

57. What is the batch number of the liquid you want to inject in to me?

(explanation) _____

Please initial this page (9 of 11) _____

58. YES NO

Does the batch number you're taking this liquid from have a '2' or a '3' on it?

59. YES NO

Would it be a reasonable assumption that the liquid you intend to inject into me is not really a vaccine but is an experimental procedure then the public are, in reality, simply 'guinea pigs' to see what happens when it's injected into them?

60. Why are tens of thousands of qualified professional medical people around the world reporting that, in their professional opinions, this so-called untested liquid is not a vaccine at all, that whatever it is experimental and is likely not only not safe but could turn out to be very dangerous?

(explanation) _____

61. If this liquid is so effective why are so many 'boosters' required to maintain the protection it's purported to provide?

62. YES NO

Given these concerns why would any normal person consent to this experimental liquid being injected into them?

63. YES NO

As the government has officially washed it's hands of the responsibility for 'vaccine' injuries, which will include injuries caused by this liquid it recommends, and I suffer ill-effects, do you personally accept liability for any adverse consequences of your professional recommendation and advice I may experience at any time in the future?

Please initial this page (10 of 11) _____

64. Other than previously mentioned, what are the other possible benefits of injecting this liquid into me?

(explanation) _____

65. Other than previously mentioned, what are the other possible adverse effects I may experience by injecting this liquid into me?

(explanation) _____

66. Are any of the possible perceived benefits contradicted by any previous answers?

(explanation) _____

Your name (print) _____

Your professional qualifications _____

Your signature (page 11 of 11) _____

Date _____

**This is the end of these questions
though I may have more at another time**
